

Early Head Start Family Outcome 2020-2021

Family Outcomes:

Family progress checkpoints were obtained three times through the span of September 2020-August 2021. New families enroll into Early Head Start throughout the year at different times allowing some families to only have had two check points, though all still can achieve progress!

The life areas represented in the chart are tied to the National Head Start “Parent, Family, and Community Engagement Framework (PFCE)” Family Outcomes.

Fifty-nine families completed two or more assessments and are represented in this graph. Of those families, thirty-three reported an increase on the matrix scale. Through strengths-based partnerships with families, many families reported gains and increased their level of stability. Some individual families gained in numbers as high as 8.6 & 9.8 points across the board.
